

BEFORE

RENOVATE

“DiLeonardo’s design team blends the creative solution, budgetary requirements and proposed schedules to ensure a financially successful project. It is also worth noting that the team possessed the professionalism and management skills to effectively address the needs of all the parties involved in our guestroom refurbishment including the owner, marketing team and hotel operations. I applaud their ability to successfully reconcile the varying expectations and with their multi-faceted client.”

- David O’Shaughnessy
President and Managing Director
Seaport Hotel & World Trade Center

“The rooms at the Seaport have recently been renovated and it’s a job well done! Attention was given to technology; there’s an outlet along the night table, master on-off, service and privacy buttons are bedside as well as at the door, state of the art TV is beautifully mounted on the wall with hi-speed wi-fi. Beds are very comfy with oversized pillows that were so welcoming after a long day. I would certainly recommend this hotel...”

Seaport Hotel Boston, MA

The Seaport Hotel and its harbor setting truly capture the essence of Boston. Residentially scaled and timeless, with a sense of vitality and innovation, guests will feel right at home in this welcoming environment appointed with tailored, comfortable, and timeless details in an elegant, yet understated Bostonian way. A focus on comfort and practical functionality caters to the primary audience of business travelers - allowing them to work, relax, and recharge in their guestrooms with current technology, luxurious bedding, well-planned lighting and upscale amenities. Thoughtful detailing demonstrated throughout the closet creates a personal wardrobe experience and full length mirror enhances the dressing area and opens the space.
